Maxim Makes Life Easier

Just as growing older can allow for a more relaxed lifestyle, it can also present new obstacles and challenges. Many seniors find that for the first time in their lives, they have to ask for assistance. Maxim Healthcare Services can help.

With Maxim, you or your loved one will get the necessary assistance needed at home to maintain a safe, independent, and enjoyable lifestyle. Maxim's clinical team, led by the Director of Clinical Services, works with clients and their families to provide individual care management plans that meet their needs. We are highly skilled and sensitive to the physical and emotional needs of each client. Regularly monitoring and evaluating your loved one's care every 30 days ensures that Maxim continues to provide the necessary, top quality services our clients have become accustomed to.

We understand the challenges of mature adults and can help with daily living activities that may have become more difficult over time. Providing personal care, light housekeeping, and medication reminders, are just some of the many duties that our caregivers perform. As a hands on medical provider, Maxim provides all of our services with one goal in mind: "To promote the highest degree of recovery, comfort, and independence."

Our Quality is Reassuring

Maxim's clients have peace of mind knowing that they are working with an industry expert dedicated to their satisfaction. When you call Maxim, a representative will answer your questions and address any concerns you may have. Upon receipt of your approval, we will begin services by sending a nurse to your home to conduct an initial consultation. All findings and requests are then scheduled into Maxim's approved plan of service. You can depend on Maxim to assign nursing professionals who are qualified and compassionate. We will compare your preferences to our caregivers' qualifications, ensuring a compatible match. All caregivers are licensed by the state, fully bonded

and insured; and undergo thorough interviewing, testing, and screening prior to employment. Furthermore, caregivers are regularly supervised and evaluated by clinical management to ensure that Maxim's high service standards are met.
