Commitment to Quality Care

Many parents understand that when their children are ill, nothing is more important than finding the best treatment available. At Maxim, we believe that offering uncompromising care to children is not only important, it's essential. That's why we created Maxim Pediatric Services, a division of Maxim Healthcare Services, dedicated solely to the needs of young patients and their families.

Maxim offers a level of care that doctors and case managers across the nation have come to trust. Our services range from 24-hour complex clinical care to educational training for parents and family members. Regardless of the situation, Maxim offers quality service with a compassionate touch.

Commitment to Customized Care

At Maxim, we know that no two children are the same. That's why our pediatric services are designed specifically on a case-by-case basis. Our clinical managers work with your primary Physician to develop a plan of care that meets your child's needs. To start the homecare process, we will come to your home to address your concerns and answer your questions.

Together, we will match your needs to our highly qualified and compassionate team of pediatric professionals. All of our caregivers are licensed, bonded, and insured, and undergo a thorough and extensive interview process. Furthermore, Maxim's team of clinical managers will continually supervise and evaluate your child's case to ensure complete satisfaction. Your child deserves only the best.

Commitment to Excellence

It is important to know that you are working with a proven homecare agency. That's why Maxim is proud to be recognized nationally as a leading provider of quality care. All of our homecare offices are accredited by the Accreditation Commission for Health Care (ACHC). For a list of office locations, please visit our Web site at www.maximhomecare.com.
